

**Solutions for Social Issue**

**KUALA LUMPUR**

**14 - 17 July 2023**

---

# ABOUT STICK

STICK 2023 aims to inspire students to come up with creative solutions for the social issues in their own country. All the visits and workshops are designed to lead the students to understand and identify social issues, and build up problem-solving skills and capability to brainstorm innovative ideas.

Through the brainstorming sessions in the M!ND WorkClass, students learn to build prototypes of solutions that can be used in their own community. Students will exhibit their prototype solution and get first-hand feedback from the judges to improve it further after the conference. STICK Is organized in collaboration with Krya, which develops and conducts workshops for students to enhance their creativity and innovation.

## Age Groups

Junior: 9 to 12 years old

Senior: 13 to 17 years old

## BENEFITS FOR STUDENTS

- ✔ Understand and identify social issues
- ✔ Build up problem-solving skills
- ✔ Learn how to design and build prototypes
- ✔ Develop the capability to discuss innovative ideas
- ✔ Appreciate diversity

# ACTIVITIES ( SITE VISITS )

## Inspiring Workshop

Students do some activities and workshops to enrich their experience and be more equipped for the conference.

Exploring Pusat Sains Negara National Science Center to experience science and inspire them more to enhance their solution ideation during the innovation hackaton.

## Activities at Pusat Sains Negara National Science Center

# ACTIVITIES ( INNOVATION HACKATON)

## M!ND WorkClass by Krya

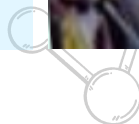

In this workshop, students are challenged to take on new perspectives. They are taught how to approach ideation when trying to come up with solutions through brainstorming. M!nd WorkClass is designed to help students narrow down their problems to be more specific, but also encourage them to consider various options before deciding on a specific action plan, before coming up with their prototype solution.

## Prototype Making and Exhibition

Participants will get hands-on and try to create a prototype of an idea that they have discussed and conceptualised.

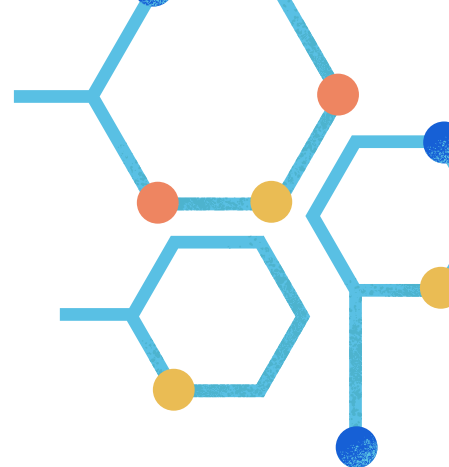

Finally, the prototypes are showcased exhibition style, and participants have to present their prototype to the judges who will visit the exhibits one by one, providing advice and feedback at the same time.

July

## Youth Ambassadors Youth Empower Youth

**Youth Ambassadors (YA)** is a non-profit social enterprise dedicated to empower youths in ASEAN countries and beyond to become change makers in their respective communities. We specialise in organizing educational conferences for youths, offering them a platform to learn and be inspired through various activities, workshops and presentations. More importantly, we aim to promote positive interaction and cooperation between youths from different ethnic and cultural backgrounds. Some of our flagship programmes include Youth Environmental Summit (ES) and Asian Student Leadership Conference (ASLC).
